HARDY HYBRID RHODODENDRONS

We can still furnish a limited quantity of these superb shrubs, all bushy, budded, in best named, hardiest varieties and fine assortment of colors. These are becoming more and more scarce—in fact this quality of plants we have for so many years supplied in large quantities, are now in extremely limited supply; and on account of the Chinese Wall of Exclusion, U. S. Quarantine No. 37, of June, 1919, no more are obtainable in this country. If you want some we recommend order and reservation immediately. We shall be pleased to quote you best prices on request.

BEAUTIFUL MOUNTAIN LAURAL IN BLOOM
Grouping of Native plants, Lake Mohonk, N. Y.

GREAT AMERICAN ROSEBAY (*Rhododendron Maximum*) and MOUNTAIN LAUREL (*Kalmia Latifolia*)

Selected, bushy plants, with ball.

Our Standard carlots, viz.:

175 to 200 plants 2-4 ft. with ball.....	135.00 per car
150 to 175 plants 3-5 ft. with ball.....	150.00 per car

Owing to freight charges we also load double quantity combination cars, viz.:

350 to 400 plants 2-4 ft. with ball.....	260.00 per car
300 to 350 plants 3-5 ft. with ball.....	290.00 per car

These beautiful Native shrubs have been among our leading specialties for forty years. Our careful selection and the quality and reliability of our stock are unsurpassed and result in repeat orders every season. Our method of handling and tracing shipments insures prompt arrival in best condition.

ABOUT OUR HEMLOCKS:

"I enclose cheque for the Hemlocks. I am greatly pleased with them and they are now thriving in New Canaan. They came in excellent condition, roots carefully protected from the air, and moist, so I look for good results. Thank you."

AZALEAS

BEAUTIFUL NATIVE VARIETIES. Selected, bushy plants with good ball in hardy varieties and assorted colors, including Arborescens, Lutea, Nudiflora, Vaseyi, Viscosa, etc.

THE FURNISHING OF PLANTING LISTS COMPLETE,

a special feature of this company, as for many years heretofore, is a service not usually obtainable from other equally responsible nurseries often resulting in a substantial saving to the purchaser. Send us your list for quotation.

RESULT—"All items of order received and very satisfactory plants."

GROUP OF NATIVE
MOUNTAIN LAUREL
(See opposite page)

TREE SURGERY IS TREE INSURANCE.

Large specimen trees which require many years to develop may be destroyed in a single season through insect pests or improper attention. Our "Tree Doctors" are a most dependable tree insurance. Their service is efficient and satisfactory. Our charges are reasonable. Have our expert examine your trees and give you estimate.

A WORD ABOUT OUR "TREE DOCTORING":

"Enclosed find check for work done on the trees at my place, during the months of October and November. I noticed your men at work and was particularly pleased with their knowledge of the subject and the industry they displayed on the job. Your invoice appears to be quite satisfactory."

ABOUT RHODODENDRONS MAXIMUM:

"I am glad to say the plants arrived in good condition, and we did not have as much trouble in unloading them as I had anticipated."

REPORT FROM A PACIFIC COAST SHIPMENT OF OUR FRUITS:

"The shipment of (nearly 4,000) trees arrived today and we want to say that it is a very fine lot of trees. Our Fruit Inspector said that he had never seen a nicer lot of trees come into Washington."

As a sequel we received a further order, the shipment of which brought this report:

"We beg to advise that car of (10,000) trees arrived here in good shape last evening. Thanking you for your attention in this matter, we are."

The Autumn Planting Season is a Most Favorable Time For Transplanting All Kinds of
